Worksheet: Traditional and sustainable resource development

Directions: We have listed some descriptors of traditional resource development on the left hand side. Please list what some descriptors of the opposite might be, what sustainable resource development might look like.

Traditional Resource Development	Sustainable Resource Development
Focused on finding more money to deliver services	
Focused on grants and fundraising	
Based on “perceived” need rather than strengths or assets	
Ignores sustainability until it is too late – after implementation	
No or low-impact partnerships	
Based in Scarcity Paradigm
